Smiles Restored</b><br/>→ 31 x 5 = 155</p> <p><b>Note : 1.</b> Bengali Muslim families in Gurugram faced identity-based targets in August 2025. Despite holding Aadhar cards, PAN cards, and voter IDs, they were labeled as “Bangladeshi infiltrators,” affecting their lives drastically. Some were compelled to flee the area, while others who were left behind faced incarceration and poverty with a pending electricity bill and mountaineering. Miles2Smile, under project Dastagir, provided them rations to survive and financial assistance to clear pending bills.</p> <p><b>Shaheen Bagh ⇌ Palla</b></p> <p>Frequency Factor = 2<br/>Stay Factor (<math>\Sigma</math>) = 1 Day<br/>Team Factor (<math>\tau</math>) = 3<br/>Occupancy Factor (<math>\Omega</math>) = 10 hours<br/>Families Assisted = 1<br/>Family Factor ( <math>\phi</math> ) = 13<br/>Smile Hours = (<math>\Sigma</math>) x (<math>\tau</math>) x (<math>\Omega</math>)<br/>Miles Covered = One way distance in miles x Frequency Factor + Local Travel<br/>Smiles Restored = Families Helped x (<math>\phi</math>)</p> <p><b>Calculation</b><br/><b>1. Smiles Restored</b><br/>→ 1 x 13 = 13</p> <p><b>2.</b> Aamir, 28, a truck driver from Palla village in Haryana, spent most of his days behind the wheel, working long hours to keep his household running. On the night of March 2, he was driving his pickup truck when his vehicle was intercepted near the Bhiwadi area of Rajasthan. As per the reports, a group of self-styled cow vigilantes rammed their vehicle into his truck, forcing it to stop. What followed happened in moments. Before Aamir could even grasp what was unfolding, he was attacked and shot in the head. The violence was sudden and merciless, claiming his life within mere hours. The team visited Aamir's house in Palla and started the relief work by providing medical assistance to his pregnant wife and funds to the family to run the house.</p> |

The program is built on the belief that every child possesses unique talents, and when nurtured in the right environment, these abilities can shape their future and empower them to become independent, confident contributors to society. At Hunar, the primary focus is to cultivate a generation of creative thinkers, artists, and young professionals who can express themselves freely and develop practical skills that extend beyond traditional academic learning. We believe that every society thrives when its children are encouraged to think independently, innovate, and explore their full potential.</p> |

The violence left many women without homes, livelihoods, or support systems, and Sabaat emerged as a compassionate response to help restore dignity and stability. What started as immediate relief has grown into a transformative platform where women learn stitching, gain financial independence, and rebuild their confidence. By providing skills, safe workspace, and steady income opportunities, Sabaat nurtures resilience and long-term empowerment, enabling women affected by conflict and marginalisation to reclaim their agency and rebuild their lives with pride and hope.</p> |
| Rekhta | <p><b>Shaheen Bagh ⇄ Baansera Park Sarai Kale Khan</b></p> <p>Frequency Factor (<math>\eta</math>) = 6<br/>Stay Factor (<math>\Sigma</math>) = 3 Days<br/>Team Factor (<math>\tau</math>) = 20 (13 team members of Miles2Smile, 3 calligraphers, 4 Sabaat staff)<br/>Occupancy Factor (<math>\Omega</math>) = 24 Hours<br/>TFR = 2.00<br/>Families Assisted = 70 (The profit generated from sale was used for Sabaat's women.)<br/>Family Factor (<math>\phi</math>) = 4<br/>Smile Hours = (<math>\Sigma</math>) x (<math>\tau</math>) x (<math>\Omega</math>)<br/>Miles Covered = One way distance in miles x Frequency Factor + Local Travel<br/>Smiles Restored = Families Helped x (<math>\phi</math>)</p> <p><b>Calculation</b><br/><b>1. Today, it serves over 250 underprivileged children, including orphans, by providing quality education and psychosocial support through 8th grade. With a team of dedicated teachers, the school uses innovative teaching methods and provides individual attention to address each child's needs. The curriculum covers core subjects like mathematics, science, languages, social sciences, and the arts, along with essential life skills and moral values. To remove financial barriers, the school supplies students with uniforms, books, and stationery, ensuring equal access to learning.</p> |

The center aims to support students from economically disadvantaged backgrounds by providing access to quality education, academic guidance, and learning resources. Since its inauguration, the center has been running at full capacity, reflecting the strong enthusiasm and commitment of the students. Basmina is a neighboring village of Margi, which suffered a devastating landslide in August 2025, making this educational intervention especially significant for the region.</p> |

Smiles Restored</b><br/>→ 150 x 4.4 = 660</p> <p><b>Note :</b> The camp was part of Miles2Smile’s ongoing mission to address the healthcare gap in economically weaker regions, where access to professional medical help is often a distant reality. In a single day, the camp managed to provide not just medical attention but also reassurance, education, and a renewed sense of community support. The camp featured a range of medical services tailored to the local population’s needs: general physical examinations, blood pressure and blood sugar testing, pediatric assessments, and nutritional advice.</p> |

Instead, these totals were distributed category-wise based on the percentage share of each category derived from the overall category-wise analysis. The resulting values were then allocated and added individually to their respective categories. |
|                          |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
